Work Experience

Technomark Solutions | ([URL](#)) | Full Stack Developer Dec 2022 - Present

- Proficient in web development with expertise in React.js, Express.js, TypeScript, Laravel, Angular, and extensive experience in web automation using JavaScript.
- Skilled in building and maintaining robust web applications, utilizing TypeScript for improved code quality, and collaborating with cross-functional teams to deliver efficient solutions.
- Developed scalable, secure applications using both MERN (MongoDB, Express.js, React.js, Node.js) and MEAN (MongoDB, Express.js, Angular, Node.js) stacks.
- Proven track record in enhancing user experiences, optimizing workflows, and automating processes with JavaScript across multiple projects.
- Effectively utilized Redux and Context API for state management in

application development.

- Collaborated closely with design teams to create visually compelling, user-focused interfaces.

Konzept Solutions | ([URL](#)) | Full Stack Developer

Dec 2020 - Nov- 2022

- Developed new APIs for customers and resolved issues efficiently.
 - Implemented robust authentication and authorization mechanisms using JWT and OAuth to ensure secure access.
 - Communicated with clients to gather requirements and deliver tailored solutions.
 - Collaborated closely with UI/UX designers to create visually appealing and responsive user interfaces.
 - Set up environments for development and deployment, ensuring smooth workflow.
 - Created reusable templates for commercial use, streamlining future development processes.
 - Built an Android application using Flutter, expanding cross-platform development capabilities.
 - Developed and implemented software solutions to address specific client challenges.
-

Projects Experience

Project 01 : Praso india | Full Stack Developer

Description : This comprehensive app was developed to streamline internal operations for Praso India. It enables employees to manage attendance, apply for leaves, view company holidays, and submit daily work reports efficiently. The app also provides access to detailed payroll information and integrates a Google Map-based tracking system for location-based employee activities. Additionally, it offers a user-friendly interface, enhancing the overall workflow and transparency within the organization.

Project 02 : KRA Management | Full Stack Developer

Description : Developed an employee performance evaluation system designed to provide structured and efficient feedback. This system includes goal tracking capabilities, allowing employees and managers to set, track, and achieve objectives. Additionally, it incorporates time management features akin to Zoho Hours, improving overall productivity and resource allocation. The tool enhances employee accountability and organizational efficiency through clear performance metrics and streamlined processes.

Project 03 : Chapter One Bookstore | Full Stack Developer

Description : Worked on integrating APIs into the bookstore's website using Angular, enhancing the user experience. This project allows customers to browse and purchase books online with a seamless payment process via Razorpay.

Project 04 : Konzept Solutions | Full Stack Developer

Description : Created Konzept Solution Website, and application for employee

Project 05 : Short Url | Full Stack Developer

Description : Transforming long, ugly links into Shorten URLs. Get short-link who visits your URLs and create third party short url

Project 06 : Work on automation | Full Stack Developer

Description : In automation i am work on different different bank account statement automation work & i have worked in it from account transaction pdf to excel in good formating (OCR)

Project 07 : Metrolink Outsourcing Services | Full Stack Developer

Description : i have worked to create a website and backpack admin panel for fastag process and partner wise distribute payment partner wise split proceeds worked on that.

Education

Degree	Institute	Result	Year
